DALBELLO
SKIBOOT

FOR MORE THAN 40 YEARS, DALBELLO SKI BOOTS
HAVE GIVEN SKIERS THE ABILITY TO MAXIMIZE THEIR SKIING
POTENTIAL WITH LEGENDARY COMFORT AND UNIQUE
TECHNOLOGIES THAT DELIVER POWER,
CONTROL, AND CONFIDENCE.

NEW IN 2016/17

The legendary Dalbello fit gets an upgrade in more than 60% of the line, thanks to the My Fit System. A comprehensive fitting program, liner and shell can now be thermo molded at several levels over and above the pre-formed Contour 4 shell design in every My Fit boot.

This allows customization in an easy, quick, sensible format.

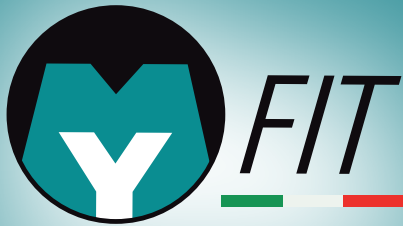

DRS 98

Based on the DNA of the DRS WC, with feedback from multiple levels of skiers and market needs, we developed the DRS 98: a 98 last boot that delivers the highest performance by combining top level racing technology with the specific Dalbello fit story.

LUPO CARBON T.I.

Hiking like a touring boot and skiing like a freeride boot, the new Lupo Carbon T.I. combines the ultimate skiability with amazing hiking capability in a boot that comes in at a weight of under 1700g. Yet another innovative solution from Dalbello.
