

**COLLECTION**  
2016 / 2017

For over 50 years, **LANGE** has consistently been found on the feet of the world's best skiers. Our sole focus is **better-fitting, better-skiing boots**. And we are the premium benchmark.

**BE PASSIONATE**

Since the beginning our passion for foot mechanics, recognition of its subtleties in relation to skiing, and desire to help skiers perform better has resulted in some of the most important innovations in ski boot design.

**BE FOOT-CENTRIC**

Constant collaboration with the best boot-fitters in the racing and retail worlds, and 3D scans of more than 20,000 individual feet have led to a deep understanding of how the skiing foot functions.

**BE PRECISE**

We develop state-of-the-art solutions to address those hard-to-fit areas; solutions that provide comfort without sacrificing performance. We then tirelessly handcraft, test, and repeat to deliver the ultimate blend of comfort and performance for every foot shape.

**BE ONE**

A great-fitting ski boot is a skier's most essential piece of equipment. Consistently the best in out-of-box fit, only LANGE delivers the performance solutions, ensuring every skier that steps into a Lange will BE One with their boots.

# BEone

LANGE has built its foundation, and success, on delivering the **best "out-of-the-box" fit** for every foot shape, coupled with the absolute **best performance** available in skiing today.

## BEST "OUT-OF-THE-BOX" FIT

Not all feet are created equal.

### Choose Your Width

Lange is the only brand to offer three unique lasts across every category: low (97mm), medium (100mm), and high volume (102mm), ensuring a true first-fit for every foot shape.

97mm  
low volume

100mm  
medium volume

102mm  
high volume

### Control Fit Liner

Lange incorporates a common-sense approach, incredible craftsmanship, and the solutions that boot-fitters have used for years to eliminate common pressure points and hard-to-fit areas.

**CUSTOM TONGUE:** designed instep area to guarantee maximum customization to the skiers' instep

**POWER WEDGE TONGUE:** eliminates the gap between the shin and tongue, enhancing precision and sensitivity

**SADDLE STITCHED SEAMS:** no overlapping material eliminates pressure points

**INSTEP POCKET:** reduces pressure on the instep

**ONE PIECE TOE BOX:** continuous material from toes to shin provides greater toe comfort

Our **4 PILLARS** approach achieves a level of comfort and performance that simply can't be matched, ensuring that every skier that steps into a Lange will **BEone** with their boots.

## BEST PERFORMANCE

No compromise precision, response, and control for every level.

### Natural Stance

Lange's neutral, upright stance allows more efficient power transfer on modern shaped and rockered ski designs, resulting in less quad fatigue for better, longer ski days.

### Mono-Injection

Only the highest-quality plastics are used in Lange's mono-injected shells to allow pin-pointed customization while delivering the ultimate energy transmission, rebound, and response available.

# INTRODUCING XT FREE TOUR

The best of both worlds is here. Lange's benchmark fit and legendary alpine performance meet the world of free-touring in the all-new, first-of-its-kind, XT FREETOURL. The solid sole design with Dynafit® certified inserts, new ultra-light shell and liner engineering, and Lange's patented ski/hike system with Power V-Lock redefines what a touring boot is capable of and creates a new freetouring benchmark in weight (1770 g) and performance.

## 1 4 PILLARS TECHNOLOGY

- CONTROL FIT LINER
- NATURAL STANCE
- CHOOSE YOUR WIDTH
- MONO-INJECTION

## 2 ULTRALON CUSTOM TOUR LINER

Lightweight touring liner with Ultralon foam delivers superior customization, insulation, and resistance to packing out. Motion Control provides protection and more comfortable range-of-motion when touring.

## 3 POWER V-LOCK/HIKE-SKI SYSTEM 2.0

Provides increased hiking range of motion (40°) due to a wider V-Lock, and a new metal-on-metal locking mechanism that creates powerful first-of-its-kind downhill performance.

## 4 SOLID SOLE W/ TECH INSERTS

Solid sole construction ensures secure, powerful energy transmission, and confident steering. DYNAFIT® certified inserts provide the most trust-worthy and dependable touring performance.

## 5 ULTRA GRIP WTR ROCKER SOLES

WTR rocker soles offer more comfortable hiking and touring with no compromise to downhill performance. Ultra-Grip provides increased traction, grip, and shock-absorption.

# RS RACE/ON-TRAIL

An unequaled blend of on-trail power, precision, and fit, the iconic RS series continues to be the industry benchmark and serves as the foundation for Lange's entire award-winning collection. The result of collaboration with the world's best boot-fitters, our unique 4 Pillars technology integrates the key fit and performance solutions to ensure the best "out-of-the-box" fit coupled with Lange's ultimate downhill performance.

## 1 4 PILLARS TECHNOLOGY

- CONTROL FIT LINER
- NATURAL STANCE
- CHOOSE YOUR WIDTH
- MONO-INJECTION

## 2 CHOOSE YOUR WIDTH

Key models are available in 97mm or 100mm (Wide) versions, delivering the highest levels of comfort and performance to a wider range of skiers and foot shapes.

## 3 SHORT CUFF (SC)

A shorter cuff (15mm in back/20mm in front) provides women and skiers with shorter leg shafts with a more natural stance for increased performance and comfort.

## 4 CUSTOM TONGUE

Designed with a hollow instep area for maximum customization where circulation is often cut-off and pressure points are common. More comfort, more warmth, more control.

# RX ALL-MOUNTAIN

A racing pedigree with enhanced all-mountain features, RX series boots combine award-winning comfort with Lange's legendary downhill performance. Lange's 4 Pillars technology supplies benchmark fit and performance solutions while the unique Custom Tongue offers another level of customization for greater comfort, warmth, and control. Ultra-Grip replaceable soles provide increased traction and durability for hiking ridgelines and walking to the tram.

## 1 4 PILLARS TECHNOLOGY

- CONTROL FIT LINER
- NATURAL STANCE
- CHOOSE YOUR WIDTH
- MONO-INJECTION

## 2 CHOOSE YOUR WIDTH

Key models are available in 100mm or 97mm (LV) versions, delivering the highest levels of comfort and performance to a wider range of skiers and foot shapes.

## 3 REPLACEABLE GRIP SOLES

Increased traction, grip and shock-absorption for hiking and walking.

## 4 CUSTOM TONGUE

Designed with a hollow instep area for maximum customization where circulation is often cut-off and pressure points are common. More comfort, more warmth, more control.

# SX ALL-MOUNTAIN

Based on the acclaimed RX all-mountain boot, the award-winning, 102mm SX series expands on "Choose Your Width" to ensure wider foot shapes no longer sacrifice a comfortable fit for real-deal performance. Featuring Lange's 4 Pillars technology, the SX "redefines the 102" by providing all of the key fit and performance solutions often limited to narrower, race-oriented boots.

## 1 4 PILLARS TECHNOLOGY

- CONTROL FIT LINER
- NATURAL STANCE
- CHOOSE YOUR WIDTH
- MONO-INJECTION

## 2 MONO INJECTED 102mm LAST

The first and only 102mm mono-injection boot delivers the highest performance without sacrificing comfort for wider foot shapes.

## 3 EASY ENTRY CONCEPT

Softer plastic insert over instep area allows easy, comfortable entry and exit.

## 4 REPLACEABLE GRIP SOLES

Increased traction, grip and shock-absorption for hiking and walking.

# XT FREE SKI

The ultimate high-performance freeride boot, the award-winning XT series delivers Lange's proprietary blend of hiking versatility and real-deal downhill performance. WTR and Alpine compatibility, lightweight shell and liner construction, next-generation ski/hike system, patented Power V-Lock, and metal-on-metal locking mechanism supply maximum hiking mobility without sacrificing an ounce of Lange's legendary performance.

## 1 4 PILLARS TECHNOLOGY

- CONTROL FIT LINER
- NATURAL STANCE
- CHOOSE YOUR WIDTH
- MONO-INJECTION

## 2 CHOOSE YOUR WIDTH

Key models are available in 100mm or 97mm (LV) versions, delivering the highest levels of comfort and performance to a wider range of skiers and foot shapes.

## 3 POWER V-LOCK/HIKE-SKI SYSTEM 2.0

Provides increased hiking range of motion (40°) due to a wider V-Lock, and a new metal-on-metal locking mechanism that creates powerful first-of-its-kind downhill performance.

## 4 WTR ROCKER SOLES OR ULTRA GRIP SOLES/ARCH

Compatible with WTR rocker soles or Ultra Grip alpine sole options for more comfortable hiking and walking with no compromise to binding release or downhill performance.

# TEAM

The strongest junior offering on the market, TEAM series boots are designed around the same award-winning 4 Pillars technology as adult versions with enhanced junior fit features. Short Cuff (SC) models feature shorter upper cuffs, allowing more natural stance and range of motion for increased comfort and performance. Control Fit liners address the traditional hard-to-fit issues, alleviating common pressure points and increasing circulation for incredible comfort and warmth.

## 1 4 PILLARS TECHNOLOGY

- CONTROL FIT LINER
- NATURAL STANCE
- CHOOSE YOUR WIDTH
- MONO-INJECTION

## 2 MONO INJECTION

Provides a consistent flex in varying temperatures and allows easy customization for more precise comfort and fit.

## 3 SHORT CUFF (SC)

A shorter cuff (15mm in back/20mm in front) provides women and skiers with shorter leg shafts with a more natural stance for increased performance and comfort.
