Keeping Feet Warmer

Keeping Hands & Feet Dry

Product Offering 16/17

Welcome to Hotronic's FootWarmers and Dryer for 2016/2017

FootWarmer

FOOTWARMER S4 UNIVERSAL

Includes 2 Battery Packs, 1 Recharger, 2 Heating Elements, 1 pair of Cambrelle® Covers & Strips, and 1 pair of Hotronic's One Size Fits All - Heat Ready Insoles. For installation in the included One Size Fits All - Heat Ready Insoles or on custom insoles, orthotics, or insoles of one's own choice.

FOOTWARMER S4 CUSTOM

Includes 2 Battery Packs, 1 Recharger, 2 Heating Elements, and 1 pair of Cambrelle® Covers & Strips. For installation in Hotronic's Heat Ready Insoles or on custom insoles, orthotics, or insoles of one's own choice.

FOOTWARMER S3 UNIVERSAL

Includes 2 Battery Packs, 1 Recharger, 2 Heating Elements, 1 pair of Cambrelle® Covers & Strips, and 1 pair of Hotronic's One Size Fits All - Heat Ready Insoles. For installation in the included One Size Fits All - Heat Ready Insoles or on custom insoles, orthotics, or insoles of one's own choice.

FOOTWARMER S3 CUSTOM

Includes 2 Battery Packs, 1 Recharger, 2 Heating Elements, and 1 pair of Cambrelle® Covers & Strips. For installation in Hotronic's Heat Ready Insoles or on custom insoles, orthotics, or insoles of one's own choice.

FOOTWARMER S4 POWER SET

Includes 2 Battery Packs and 1 Recharger. For use with Hotronic's pre-wired BD Anatomic Insoles or with Heating Elements as installed in Hotronic's Heat Ready Insoles, or on custom insoles, orthotics, or insoles of one's own choice.

FOOTWARMER S3 POWER SET

Includes 2 Battery Packs and 1 Recharger. For use with Hotronic's pre-wired BD Anatomic Insoles or with Heating Elements as installed in Hotronic's Heat Ready Insoles, or on custom insoles, orthotics, or insoles of one's own choice.

BATTERY PACK S4

With four (4) batteries in each Battery Pack, the S4 is Hotronic's longest lasting, most powerful Battery Pack.

BATTERY PACK S3

With three (3) batteries in each Battery Pack, the S3 is Hotronic's most compact-yet-powerful Battery Pack.

RECHARGER S/e/m SERIES 100V - 240V (White Plug Recharger)

Recharges Battery Packs globally in 100V to 240V destinations. Includes North American and European plug adapters.

Product Offering 16/17

Welcome to Hotronic's FootWarmers and Dryer for 2016/2017

HEATING ELEMENTS WITH CAMBRELLE®

For installation in Hotronic's Heat Ready Insoles or on insoles of one's own choice. Includes 2 Heating Elements with self-adhesive backing and 1 pair of Cambrelle® Covers & Strips.

CAMBRELLE® COVERS & STRIPS

Self-adhesive, Cambrelle® fabric with peel-off backing for resurfacing custom insoles, orthotics, and other insoles.

HEATING ELEMENTS (PAIR)

For installation in Hotronic's Heat Ready Insoles or on insoles of one's own choice. Includes 2 Heating Elements with self-adhesive backing.

BD ANATOMIC INSOLES

Heat-moldable, anatomically shaped, trim-to-size Insoles with Hotronic's Heating Elements pre-installed. Five (5) sizes: S (23.0-24.5), M (25.0-26.5), L (27.0-28.5), XL (29.0-30.5), and XXL (31.0-32.5).

ONE SIZE FITS ALL - HEAT READY INSOLES

Flat, one size fits all, trim to size Insoles ready for simple, quick installation of Heating Elements. Fits up to metric size 32.

SEMI CUSTOM - HEAT READY INSOLES

Anatomically shaped, trim-to-size Insoles ready for simple, quick installation of Heating Elements. Four (4) metric sizes: 24.5 (23.0-24.5), 26.5 (25.0-26.5), 28.5 (27.0-28.5), and 30.5 (29.0-30.5).

MOUNTING BRACKETS

For a simple, secure, quick attachment of Battery Packs to ski or snowboard boots. A non-mechanical system requiring a single drilled hole. Includes 2 Mounting Brackets, 2 serrated washers, 2 T-nuts, and 2 sets of bolts.

STRAP BRACKETS

For a simple, secure, quick attachment of Battery Packs to power straps. Position Battery Packs above and out of the way of top boot buckles. Includes 2 Strap Brackets and 2 Wire Form Clips.

SLIDE STRAP BRACKETS

Battery Packs slide down over Brackets and snap into place for a simple, secure, quick, and close-fitting attachment of Battery Packs to power straps. Position Battery Packs above and out of the way of top boot buckles. Includes 2 Slide Strap Brackets and 2 Wire Form Clips.

Product Offering 16/17

HOTRONIC[®]
HEATING SYSTEM

Welcome to Hotronic's FootWarmers and Dryer for 2016/2017

VELCRO® ATTACHMENT STRAPS

Secure Battery Packs around leg or top of outdoor footwear. Use as power straps on ski or snowboard boots.

EXTENSION CORDS (20cm, 80cm, & 120cm)

Extension Cords permit attachment of Battery Packs below knees (20cm), at waist (80cm), or at chest (120cm), run underneath pant legs, and plug into Heating Elements.

BATTERY PACK WIRE FORM CLIP KIT

For use in replacing Battery Pack Wire Form Clip and Plastic Locking Plate as needed.

INFRARED THERMOMETER

For use in testing/confirming generation of heat in Heating Element. Also for use in demonstrating heat to customers.

FOOTWARMER & SNAPDRY POP DISPLAYS

Both FootWarmer and Snapdry POP Displays are excellent silent sales representatives, attracting your customer's attention, answering many questions up front, and offering a hands-on "Feel the Heat" experience (FootWarmer Display). The Displays signal to your sales staff when a customer has an interest in the product. Further presentation is easily made from the Display. Both Displays work on countertop, slat wall, and grid-wall. Includes integrated brochure holder.

Snapdry

SNAPDRY BOOT & GLOVE DRYER 120V/230V

Includes blower assembly, air manifold assembly with flexible air tubes, right angle extensions for tall footwear, straight extensions for hand wear and low cut footwear, integrated hand wear stand, and nylon storage bag.

BOOTDOC

TUNE YOUR FEET

BD POWER FIT SOCKS

Created in a wool blend with a light compression, BD's Power Fit Socks are designed to enhance one's comfort and warmth in a performance fit. Four (4) sizes: S (22.0-24.5), M (25.0-26.5), L (27.0-28.5), and XL (29.0-31.5)

KEEPING FEET WARM

KEEPING HANDS AND FEET DRY

The EARLY ORDER INCENTIVES of 6%, 4%, 2% extend to FootWarmer and Snapdry Complete Units and Combination Sets only.

VOLUME DISCOUNT LEVELS are determined by the combined initial volume ordered in FootWarmer and Snapdry Complete Units and Combination Sets.

COMBINATION SETS qualify towards Volume Discount Levels when POWER SETS and BD ANATOMIC INSOLES are ordered on a one-for-one basis. ADDITIONAL POWER SETS and INSOLES ordered above the one-for-one basis continue to receive the earned Volume Discount Level. Should POWER SETS or BD ANATOMIC INSOLES be ordered separately, the qualifying Volume Discount Level will be determined by the combined volume of FootWarmer and Snapdry Complete Units only.

SHIP DATES

EARLIEST SHIP DATE: September 1, 2016

HOTRONIC

General Terms & Conditions

USA

General Conditions	All orders are subject to acceptance by Wintersteiger, Inc. In the event of discrepancies between a Dealer's purchase order and Hotronic's printed programs, the Hotronic printed program prices prevail.
Prices	All prices and terms are effective as of the dates specified on the current Hotronic Price List and General Terms and Conditions.
Discount Qualifications	To qualify for volume discounts, all orders must be firm orders. Any cancellations will change the discount on all orders. Orders requiring written or verbal confirmation prior to shipping are not treated as firm orders and therefore will not count toward the volume discounts.
Minimum Quantities	A minimum of twelve (12) FootWarmers and/or Dryers per location is required on all initial orders.
Preseason Orders	Initial orders placed prior to May 31 of each year, for delivery July 1 or later of the same year, are considered preseason orders and are subject to the Hotronic Preseason Volume Discount Program.
Preseason Delivery Dates	The earliest ship date for preseason orders is July 1 of the year the order is placed. The latest ship date is December 20 of the same year. Wintersteiger, Inc., will ship within two weeks on either side of the requested ship date depending on availability. Any change or cancellation must be in writing and received 14 days prior to the requested ship date.
Preseason Reorders	Reorders placed subsequent to initial orders placed preseason will receive the earned preseason volume discount when the minimum reorder requirements are met as specified on the current Hotronic Price List.
Inseason Orders	Initial orders placed after May 31 of each year are considered inseason orders and are subject to the current Hotronic Inseason Volume Discount Program.
Inseason Delivery Dates	The earliest ship date for inseason orders is July 1 of the year the order is placed. The latest ship date is March 31 of the following year. Wintersteiger, Inc., will ship within two weeks on either side of the requested ship date depending on availability. Any change or cancellation must be in writing and received 14 days prior to the requested ship date.
Inseason Reorders	Reorders placed subsequent to initial orders placed inseason will received the earned inseason volume discount when the minimum reorder requirements are met as specified on the current Hotronic Price List.
Split Shipments	Split shipments are accepted on preseason orders only. Each split shipment must be written as a separate order with all orders being placed simultaneously with Wintersteiger, Inc., to qualify for the volume discounts. Split shipment orders requiring written or verbal confirmation prior to shipment are not treated as firm orders and therefore will not count toward the volume discounts.
Freight	All shipments are FOB, Salt Lake City, UT, or Williston, VT. Title passes to the purchaser when goods are consigned to a common carrier. Wintersteiger, Inc., shall endeavor to arrange the least expensive, timely mode of transport to the Dealer but has no responsibility after the consignment of the goods. In event of freight loss, the purchaser must initiate a freight claim with the carrier. Wintersteiger, Inc., bears no responsibility for freight claims.
Sales Manager	Geoff Bruce

Ready for Comfort & Warmth!

HOTRONIC[®]
HEATING SYSTEM

Welcome to Hotronic's S Series FootWarmers for 2016/2017

FootWarmer

HOW FEET BECOME COLD

When colder outside temperatures are detected, the nervous system restricts blood flow to the extremities to maintain the body's core temperatures. The toes (and other extremities) quickly become uncomfortably cold.

HOTRONIC KEEPS FEET WARM

By providing a base level temperature at the toes, Hotronic's Heating Element blocks and neutralizes the penetrating cold keeping the blood circulation open while maintaining comfort and warmth in the feet.

The Hotronic FootWarmer offers three base level settings for comfort and warmth maintenance. A fourth setting offers an extra blast of heat when needed.

WHEREVER YOU GO

Hotronic's FootWarmers easily install in all types of footwear and transfer simply from one pair to another. Use while skiing, snowboarding, snowshoeing, bicycling, horseback riding, fishing, and during other general cold-temperature activities.

HOTRONIC'S FOOTWARMERS

Hotronic's S Series Footwarmers offer more than ever before. With enhanced reliability and longevity, the new S Series batteries maintain up to 55% of a full charge *and* 95% of their initial capacity *after four years of non-use!* Plus, an increase in capacity offers up to a combined 30% in higher average temperatures *and* longer durations on a single full charge, all when needed most, in the cold!!!

TWO MODELS TO CHOOSE FROM

With four (4) batteries in each Battery Pack, the FootWarmer Power Plus S4 is Hotronic's longest lasting, most powerful FootWarmer. For compact power, the FootWarmer Power Plus S3 comes with three (3) batteries in each Battery Pack. Hotronic's S Series Recharger and Heating Elements come standard with each model.

KEEPING FEET WARMER - LONGER

Ready for Comfort & Warmth!

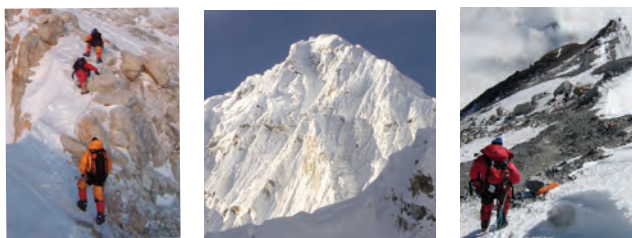

Welcome to Hotronic's S Series FootWarmers for 2016/2017

FootWarmer

READY FOR THE COLD

Hotronic's S Series FootWarmers, designed for cold-temperature operation, maintain up to 55% of a full charge *and* 95% of their initial capacity *after four years of non-use!* That's power when needed most! Even in extreme conditions down to -30°C (-22°F)! At the same time, NiMH batteries do NOT have a "memory effect" and do NOT require fully discharging before fully recharging.

A SMARTER WAY TO RECHARGE

Wherever one goes worldwide, Hotronic's advanced global charging technology senses when the batteries are charged and protects them from overcharging damage by switching to trickle current recharging. Compatible with all S, e, and m Series Battery Packs, the Recharger's LEDs indicate recharging mode and battery charge status.

SET FOR COMFORT & WARMTH

The Hotronic FootWarmer offers three base level settings for comfort and warmth maintenance. A fourth setting offers an extra blast of heat when needed. Press-and-release the Battery Pack's ON or OFF button to select each setting. Easy to read LED lights indicate the setting selected and when the power is on or off.

Temperature & Duration Chart			
Setting	Approximate Average Temp. °F	Duration Range	
		POWER PLUS 4	POWER PLUS 3
1	84 - 98	16.5 - 21 hrs	14.5 - 17.75 hrs
2	107 - 121	7 - 10.5 hrs	5.5 - 7.75 hrs
3	122 - 138	5 - 7.5 hrs	3.5 - 5.75 hrs
4	158 - 173	2.5 - 4.5 hrs	2 - 3.5 hrs

Based on Battery Pack in ambient temperatures of -22° to -15°C (-9° to +4°F).
Based on Heating Element in ambient temperatures of 20° to 26°C (68° to 79°F).

AN ELEMENT OF HEAT

By blocking and neutralizing the penetrating cold, Hotronic's Heating Element keeps the blood circulation open while maintaining comfort and warmth in the feet. The Heating Element's large oval shape and self-adhesive backing provide effective anatomical coverage of the toes and easily installs in Hotronic's Heat Ready Insoles or on insoles of one's own choice.

KEEPING FEET WARMER - LONGER

Keeping Hands & Feet Dry!

HOTRONIC®
HEATING SYSTEM

Welcome to Hotronic's Boot and Glove Dryer for 2016/2017

Snapdry®

BOOT & GLOVE DRYER

WET HAND & FOOTWEAR

Wet outside conditions often contribute to damp, even drenched, hand and footwear. At the same time, moisture buildup from perspiration contributes significantly as well. Once damp, hands and feet can become uncomfortable, even cold. If damp conditions persist, increases in bacterial and fungal growth can cause unpleasant health conditions for hands and feet and further their discomfort.

DRY HAND & FOOTWEAR

By providing the gentle air and heat of Hotronic's Snapdry Boot & Glove Dryer, damp conditions from moisture buildup are reversed deep within the hand and footwear materials. A dry, comfortable, healthy environment is created.

Using Hotronic's Snapdry Boot & Glove Dryer on a consistent basis maximizes the potential for dry, comfortable, healthy hands and feet.

HOTRONIC'S SNAPDRY SYSTEM

Hotronic's Snapdry Boot & Glove Dryer offers quick, quiet, drying and pre-warming of hand and footwear. Designed with the strength of its patented "Quick Clip" system and a long lasting motor, the Snapdry Boot & Glove Dryer also travels well, wherever one goes, worldwide.

FROM THE INSIDE

What happens inside hand and footwear is easily felt and understood but is not easily quantified. The following offers some perspective as to why hand and footwear are often damp *and* cold.

"Feet perspire more than any other part of your body except your head and hands. Each foot perspires about ¼ cup (0.6 dl) of water a day at rest and one full cup (0.24 lt) when active." (W.L. Gore and Associates, 1994)

"Wet conductive heat loss is 23 times greater than dry heat loss." (W.L. Gore and Associates, 1994)

HOTRONIC[®]
HEATING SYSTEM

Welcome to Hotronic's Boot and Glove Dryer for 2016/2017

Snapdry[®]

BOOT & GLOVE DRYER

QUIET AND TIMELY

Snapdry's quiet, long lasting motor maximizes the Dryer's use at any time, any season, day or night. Plus, the built-in timer provides up to a maximum of 24 hours drying time. Turn it on and rest assured. The power indicator light further confirms the Dryer is on or off at a quick glance.

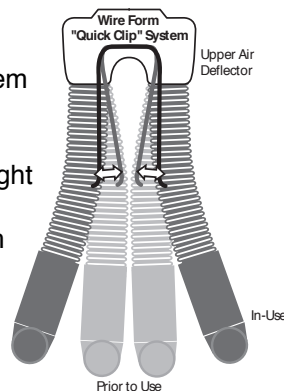

DRIES AND PRE-WARMS

Using gentle air and heat, Snapdry's Boot & Glove Dryer quietly dries and pre-warms all types and sizes of hand and footwear. Dries within one to five hours. Pre-warms in 30 to 60 minutes keeping hands and feet warmer longer by enhancing circulation.

QUICK AND STRONG

Snapdry's patented "Quick Clip" system inserts in seconds into boots, shoes, gloves, and mittens. The "Quick Clip" system holds hand and footwear upright and together while strengthening and protecting the upper air deflector from damage.

HEALTHY HANDS AND FEET

Utilizing the integrated hand wear stand, Snapdry's Boot & Glove Dryer dries hand and footwear separately to minimize potential transfer of bacteria and fungi between hand and footwear. When used consistently, the Dryer minimizes potential bacterial and fungal growth by maintaining a dry, comfortable, healthy environment for hands and feet.

TRAVELS WELL

Wherever one goes worldwide, the Snapdry Boot & Glove Dryer simplifies travel with a dual voltage selector switch (120V/230V). The Dryer also packs conveniently inside one's boots or the included storage bag.
