LEGACY SE

HONEY, WE SHRUNK THE LEGACY!

ATHLETE GOGGLES

SPY + ERIC JACKSON *LEGACY*

"Lately I've been interested in learning about fossils and old artifacts. I recently came across a native arrowhead, which inspired this textured design."

SPY + WILEY MILLER *LEGACY*

"Feathers have such a unique texture that allow for so much color and depth in the strap. We really played that up with this design."

SPY + TOM WALLISCH *LEGACY*

"I was inspired by my other favorite winter sport, ice hockey. I've always thought skiing and hockey had a ton of similarities. Speed, agility, toughness, fun."

SPY + HELEN SCHETTINI *LEGACY SE*

"The bamboo tree is such a beautiful plant, and it always reminds me of calming moments in life. It's a nice thing to see when you're out in the depths of winter."

SPY + PHIL CASABON *MARAUDER™*

"I use mushrooms every day for culinary and medicinal purposes and more. I wanted to give credit to this incredible earth resource that brings me so much."

SPY + CHRIS RASMAN *RAIDER*

"I wanted to blend the colors and nostalgia of the '80s with the energy of a tropical surf vaca. This strap keeps me smiling."

SPY + ZAK HALE *MARAUDER™*

"I wanted a design as loud and fast as the '90s with some serious heat. This goggle lives up to that."

COLLAB GOGGLES

KEY TERMS

SPECTRA™ LENS

Multiple layers of mirrors for a look that is equally as unique as it is effective at reducing glare in full sunlight

LOW LIGHT LENS

Specially tuned lenses offer increased visibility and contrast in mixed and flat light condition

VLT

Visual Light Transmission is the amount of light allowed to pass through the lens—a higher VLT means more light

FILTER

The higher the Filter Category value, the lower the amount of light transmitted through the lens
