# GUIDE TO A PERFECT FIT

**ASI**  
32 ADVANCED SOCK INTEGRATION

Advanced Sock Integration is our all new platform that integrates the fit features of our boot liners with technical yarns creating the ultimate fit experience in performance riding socks.

Mapping the key fit areas in our liners we then used multi-density knitting to weave tri-level highs and lows that corresponded to these internal liner features to create an unrivaled level of technical integration, fit, and comfort in 32 socks.

SOCK

BOOT

LINER

AVAILABLE IN ELITE | PERFORMANCE | TEAM LINERS

## HEAT MOLDABLE 100%

CUSTOMIZE YOUR COMFORT

**TOOLS NEEDED.** Thirtytwo Fit System Heater, toe cap and compression nylons.

**STEP 1.** Remove your shoes and socks. Start with bare feet only.

**STEP 2.** Remove the footbeds from the inside of the Intuition liners and place the Fit System Heater into your ThirtyTwo boots. Press the highlighted heat setting for 15 minutes.

**STEP 3.** Select the correct toe cap - S, M, L, XL - that fits snugly around your toes without stretching out. Pull over the Thirtytwo compression nylons over toe caps and feet.

**STEP 4.** When the alarm sounds, the liners will be heated. Remove the Fit System Heater from the boots, and put the footbeds back into the liners. (If too hot, don't put your feet in. Let them cool off for a minute.)

**STEP 5.** Lace the boots snugly and stand up. Stand still for around 10 minutes, this will give the liners time to cool down and mold to your exact footprint. Done. Time to rip and grip!

### 32 ADVANCED SOCK INTEGRATION

Advanced Sock Integration is our all new platform that integrates the fit features of our boot liners with technical yarns creating the ultimate fit experience in performance riding socks.

Mapping the key fit areas in our liners we then used multi-density knitting to weave tri-level highs and lows that corresponded to these internal liner features to create an unrivaled level of technical integration, fit, and comfort in 32 socks.
