

BOMTM

2016-2017 COLLECTION

**WHEN VISION
IS EVERYTHING,
DON'T GET
STOPPED COLD.
TAKE CLEAR
SIGHTS TO
NEW HEIGHTS.**

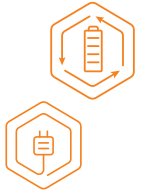

ONE BUTTON. ZERO FOG. ALL DAY.™

The world's first goggle featuring active anti-fog technology. Say goodbye to goggle fog with ABOM.

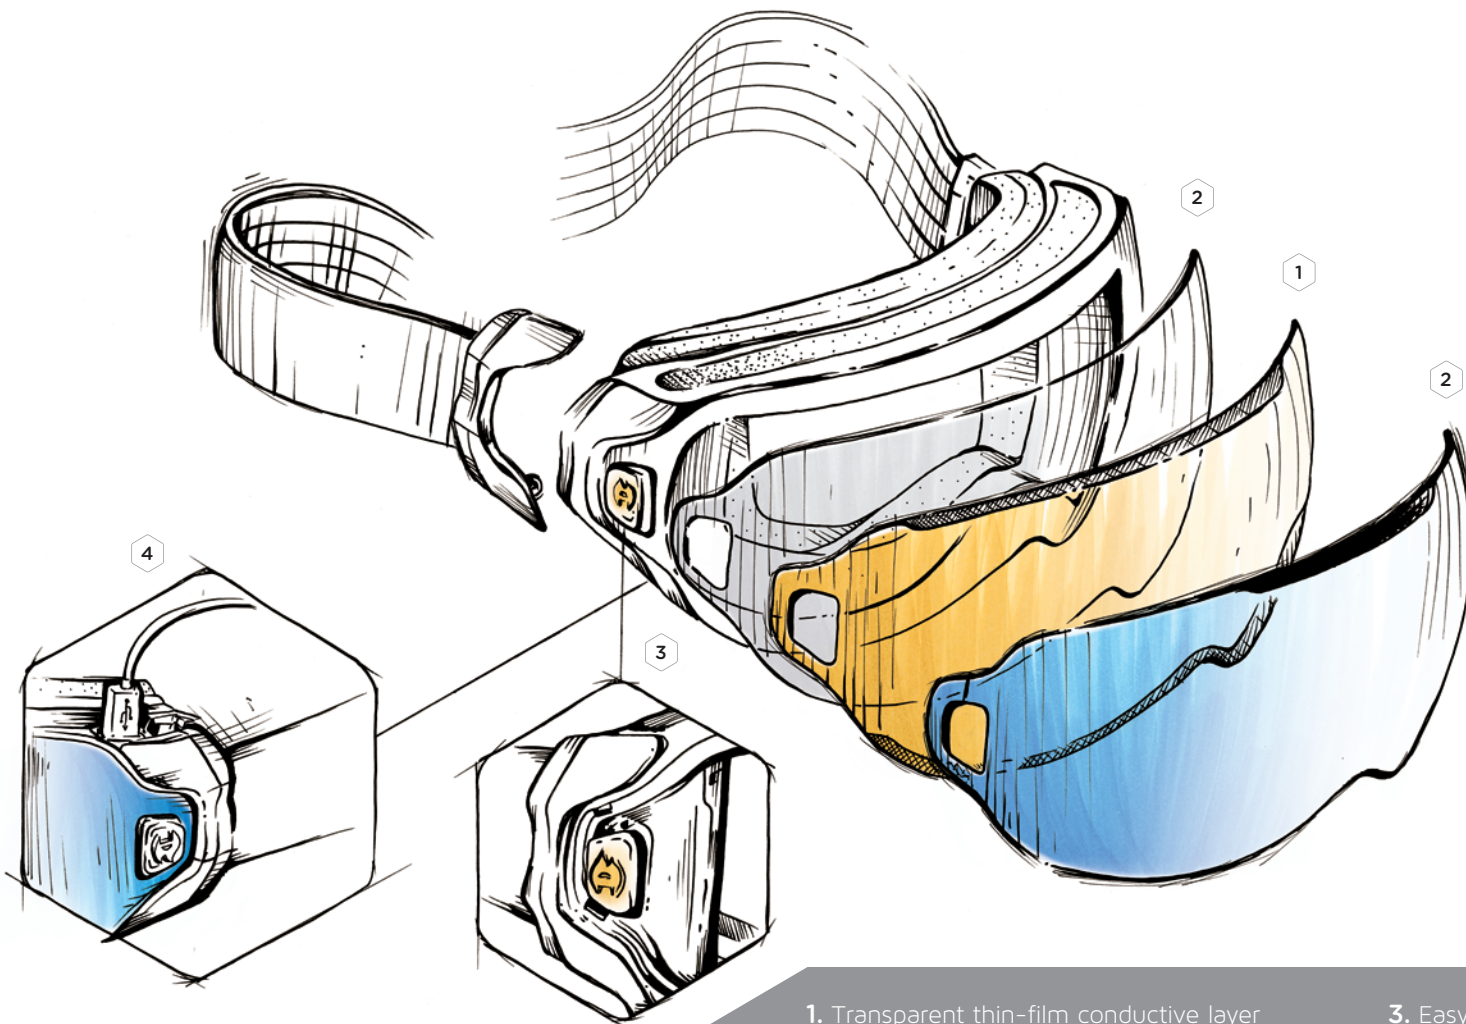

TEMPLE CUMMINS
Mt. Baker Legend

POWERED BY ABOMINABLE LABS™ TECHNOLOGY:

NOTHING BEATS HEAT™

When goggle fog threatens your sessions, nothing guarantees clear sights except high temperatures and only Abominable Labs KLAIR™ brings the heat. It works by heating up a transparent film that sits between the two-part lens to evaporate fog and keep it away all day.

1. Transparent thin-film conductive layer
2. Two-part scratch-resistant polycarbonate lens
3. Easy one-button operation
4. Six hour USB rechargeable batteries

THE ABOM™ GOGGLE.

Function comes in a lot of forms. But it's never looked like this.

LENSES BY

ADAPT OR BE LEFT BEHIND.

It's simple: if you can't see, you can't ski. ABOM keeps fog away and your focus on what's ahead—even under extraordinary conditions. It's the only goggle that works as hard as you do.
