MEN'S ADVENTURE

FROM LOST ANCIENT CITIES TO SAFARI PLAINS, CRAGHOPPERS ADVENTURE CLOTHING IS DESIGNED TO PROTECT YOU FOR EVERY JOURNEY.

A flight of fancy. Your job: a safari photographer. Your focus: Be ultra-quiet. Get great photos. Don't get rammed by a rhino. If your mind drifts, it will be to zebras, giraffes or lions, right? Not zips, pockets or loops. Features and fabrics? That's our thing. Health, security, safety? We got this.

MEN'S ADVENTURE PRO CLOTHING

Where are my keys? Where's my passport? And 18 more questions not to panic over.

You've got it all. Well, almost. To be pedantic, you've got 20 pockets. That means space for iPads & passports, of course. There's even one pocket with RFID-blocking fabric. Cybercrime? Not on our watch. There's a dry pocket for crucial documents and secret plans. Plus, we operate a no-bulge policy here. Stay stream-lined. Stay light. Your personal office-on-the-move.

NEW NAT GEO NOSILIFE DAVENPORT VEST

MEN'S PERFORMANCE LIFESTYLE

WEEKEND BREAKS, CITY ESCAPES & SUN DRENCHED LAKES, CRAGHOPPERS PERFORMANCE LIFESTYLE CLOTHING HAS YOU PROTECTED

You've got ties to city/job/email but your heart's on a plane far away, right? Some smarty once said it's about the "journey not the destination." We've made our new Urban Outsider range for both. For us, "getting there" is as good as "I'm here and it's amazing."

It knows you need to look and feel good both in the airport lounge and cliff-side walk down to the beach. We've included health and security features that will help you play the field like nobody's business - especially if that field is a sunny one. Even better if it leads to some sand dunes and surf. No worries if it heads straight to a poolside bar if you could be so lucky.

WOMEN'S ADVENTURE

FROM LOST ANCIENT CITIES TO SAFARI PLAINS, CRAGHOPPERS ADVENTURE CLOTHING IS DESIGNED TO PROTECT YOU FOR EVERY JOURNEY.

A flight of fancy. Your job: a safari photographer. Your focus: Be ultra-quiet. Get great photos. Don't get rammed by a rhino. If your mind drifts, it will be to zebras, giraffes or lions, right? Not zips, pockets or loops. Features and fabrics? That's our thing. Health, security, safety? We got this.

WOMEN'S ADVENTURE PRO CLOTHING

Where are my keys? Where's my passport? And 16 more questions not to panic over.

You've got it all. Well, almost. To be pedantic, you've got 18 pockets. That means space for iPads & passports, of course. There's even one pocket with RFID-blocking fabric. Cybercrime? Not on our watch. There's a dry pocket for crucial documents and secret plans. Plus, we operate a no-bulge policy here. Stay stream-lined. Stay light. Your personal office-on-the-move.

NEW NAT GEO NOSILIFE DAINELY GILET

CWB831

If you're heading off on a hot-climate adventure, you'll appreciate the versatility of this sleek insect repellent travel gilet. The streamlined construction conceals a remarkable tally of 18 handy pockets - perfect for stowing your trail essentials in the most ergonomic way.

WOMEN'S PERFORMANCE LIFESTYLE

WEEKEND BREAKS, CITY ESCAPES & SUN DRENCHED LAKES, CRAGHOPPERS PERFORMANCE LIFESTYLE CLOTHING HAS YOU PROTECTED

You've got ties to city/job/email but your heart's on a plane far away, right? Some smarty once said it's about the "journey not the destination." We've made our new Urban Outsider range for both. For us, "getting there" is as good as "I'm here and it's amazing."

It knows you need to look and feel good both in the airport lounge and cliff-side walk down to the beach. We've included health and security features that will help you play the field like nobody's business - especially if that field is a sunny one. Even better if it leads to some sand dunes and surf. No worries if it heads straight to a poolside bar if you could be so lucky.

WOMEN'S OUTDOOR

HIMALAYAN TRACKS TO COASTAL PATHS, CRAGHOPPERS OUTDOOR CLOTHING DESIGNED FOR THOUSANDS OF MILES OF PROTECTION

Atlas Mountains. Jebel Toubkal is calling your name. It's Atlas on its tippiest of tip-toes. 13,000 feet. To get there, you're going to have to shed some pounds. No, not some instant, crazy Paleo diet situation. We're talking lighter clothing - our Outdoor Pro range, in fact.

It's made of stuff that will stretch a bit farther than you thought possible. If you like taking the easiest way out, look elsewhere. This collection's born ready. Ready to be pushed. Ready to chase you since you already jumped up and are on your way.

CRAGHOPPERS PARTNERSHIPS

The world's most successful companies have a lot in common. They're well managed, profitable, and there is mutual respect between the business, staff and customers. These organisations stand out because everyone is working towards a common goal, with a shared ethos and an understanding of what needs to be done.

Craghoppers are the only outdoor clothing manufacturer to create a range of clothing that's approved and recommended by The Duke of Edinburgh's Award.

Craghoppers are proud to be continuing our partnership with Dian Fossey Gorilla Fund International to supply much needed kit and to raise awareness of the amazing work they do in Rwanda.

Working with Royal Geographical Society as main sponsor of 'Discovering Britain', an exciting series of geographically-themed walks that tell stories about the landscape and inspire everyone to explore and learn why Britain is as it is today.

It's one of the most loved brands in the world. 2.5 billion viewers. 220 countries. The Discovery Channel have an uncanny ability to capture moments of pure magic. Hundreds of shows and 32 years later, they're still making the world bigger, brighter and in many ways better for billions of us.

At Craghoppers, we've got huge respect for them, so much so, we've kitted out their camera crew.

We have partnered with National Geographic to outfit active consumers in North America while supporting the health and diversity of our planet.

The customer's support of the National Geographic Society through the purchase of product makes them part of our global community.

Their mission is to improve health and health equity in the UK and worldwide; working in partnership to achieve excellence in public and global health research, education and translation of knowledge into policy and practice. The London School of Hygiene & Tropical Medicine independently test our Nosilife fabric.

Our partnership with Ordnance Survey helps people get the most from their outdoor experience. Ordnance Survey is Great Britain's national mapping agency with a history dating back over 220 years. Recognised as the world's best, they are at the heart of every outdoor activity.

CRAGHOPPERS AMBASSADORS

To ensure our clothing performs at its peak across a wide range of environments, we've come to rely on our team of Craghoppers ambassadors.

Comprised of photographers, survivalists, adventure racers, environmentalists and scientists our team work across a range of climates in all seasons.

FARUK AKBAS

FUJI SPONSORED
PHOTOGRAPHER

Turkey's coast is Faruk's home. His career as a photographer has allowed him to travel not just within Turkey but also across the globe, capturing the lives and smiles of the people he meets and telling their stories in images and films.

His flair and charisma have led Faruk to develop a highly regarded reputation, with numerous awards under his belt, from institutions as varied as the British Council and the Human Rights Society.

WOODS WHEATCROFT

LIFESTYLE/OUTDOOR
PHOTOGRAPHER

From his native Idaho to the furthest reaches of the world, Woods has a talent for capturing the imagination of his audience and bringing his myriad subjects to life with a winning combination of wit, depth and vulnerability.

This rich, visual approach to storytelling has ensured Woods remains a vital and in-demand photographer working for some of the biggest magazines in the outdoors, The New York Times, Men's Journal and Outside.

VERONICA VECELLIO

GORILLA PROGRAM
CO-ORDINATOR

Veronica is the Program Co-ordinator for the Dian Fossey Gorilla Fund in Rwanda, she is on the frontline of conservation, working tirelessly to protect the endangered Mountain Gorillas of the Volcanoes National Park.

No two days are the same when you are responsible for the safety and wellbeing of more than 120 Mountain Gorillas.

Daily anti-poaching patrols are commonplace in protecting the Gorilla population.

VINCENT WALSH

DIRECTOR OF BIOSPHERIC
FOUNDATION

Vincent grew up in Manchester, before moving to London to study, followed by a period living with homeless communities in the U.S. He then moved to Ethiopia and then Nigeria to develop skills related to agroforestry and permaculture.

After returning from Africa, Vincent began a PhD focusing on Socio-Ecological urban development for the 21st century, as well as setting up The Biospheric Foundation, which is concerned with helping urban communities become self-sufficient.

FREEK VONK

SURVIVAL EXPERT
& BIOLOGIST

Freek is an award-winning evolutionary biologist from the Netherlands where he is a research fellow at the Naturalis Biodiversity Centre in Leiden. His research is focused on the venom of toxic animals, their molecular structure and how they can be applied in the field of medicine. Freek's research takes him all over the world, often to investigate the DNA, and conduct evolutionary checks on a wide range of dangerous wildlife. Freek appears regularly on television.

LARS KONAREK

SURVIVAL
EXPERT

Wilderness Survival has always fascinated Lars. "Since we live in a high-tech world, valuable knowledge of our ancestors is now lost. Who can now drill a fire without aid? Who knows more than 20 edible plants? Who is able to predict the weather for the next three hours?" These are the questions he regularly asks candidates on his survival training courses. His unique training method is experiential and practical, mixing traditional & modern Bushcraft techniques.

SÖREN BURMESTER

FISHING
EXPERT

Sören has run the biggest German Anglers Blog now since 2012. Dicht-am-Fisch.de.

The German angler has a preference for spin fishing for perch and pike and connects them with numerous fishing trips to Denmark, Spain, Sweden and Ireland.

KEVIN RICHARDSON

THE LION
WHISPERER

As a self-taught animal behaviourist, Kevin has broken every safety rule known to man when working with these wild animals. Flouting common misconceptions that breaking an animal's spirit with sticks & chains is the best way to train them, he uses understanding and trust to develop personal bonds.

His unique method of getting to know their individual personalities, what makes each of them angry, happy or upset, has caused them to accept him like one of their own into their fold.

TAMSIN JONES

DAKAR RALLY
COMPETITOR

Tamsin is something of an expert when it comes to motorcycle endurance races, having beaten the famed Dakar rally on her very first attempt in 2010. She also currently holds the women's world record for the highest altitude ride up Everest.

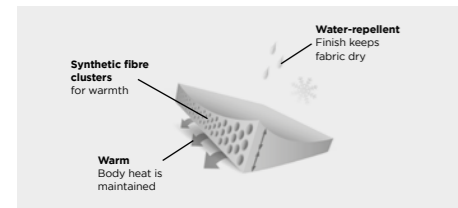

When not competing, Tamsin can be found sharing her unbridled passion for endurance racing with both children and adults alike, having racked up 10 years experience as a qualified off-road instructor.

TECHNOLOGIES

Every season, Craghoppers creates and refines a host of outstanding technologies designed to enhance movement, manage moisture, promote freshness, resist stains, repel insects, reduce maintenance, provide insulation and protect the wearer from the prevailing weather conditions all year round!

THERMO ELITE Innovative fibrecluster insulation.

Stay warm on the trail with super-compressible, down-effect insulation.

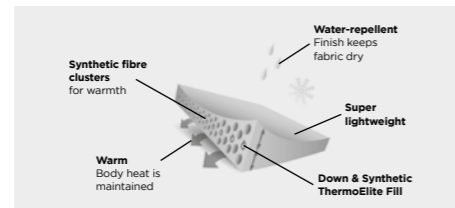

What is THERMOElite?
A new insulating technology that provides a viable synthetic alternative to natural down. The innovative THERMOElite fill uses tiny spherical fluffy fibre clusters to simulate down construction, delivering comparable heat retention properties.

Light, highly compressible and quick-drying for effortless efficiency in cold and wet conditions.

THERMO ELITE HYBRID Luxurious down-rich insulation.

Fusing sumptuous down with hi-tech synthetic fill for optimum lightweight insulation.

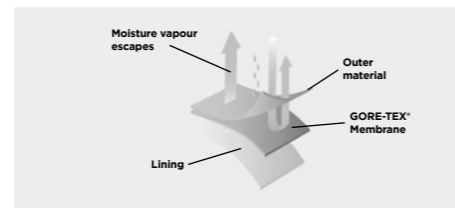

What is THERMOElite Hybrid?
An inspired fill blend that offers the best of both worlds, combining the natural insulating properties of pure down with our new THERMOElite synthetic fibre clusters for outstanding super lightweight core insulation in all weathers.

This fill-fusion delivers warmth even after a downpour. Amazingly light and compressible, it's the perfect trail packable.

GORE-TEX World leading waterproof and breathable fabrics for all weather conditions.

Guaranteed to keep you dry.™

(GORE-TEX® GUARANTEED TO KEEP YOU DRY™, WINDSTOPPER®, PACLITE®, GORE and designs are registered trade marks of W.L.Gore & Associates)

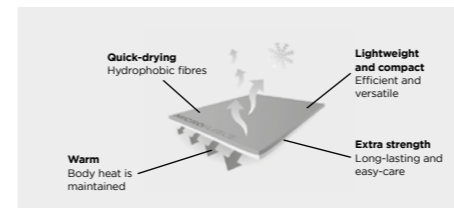

GORE-TEX® Products?
Travellers world-wide have been putting GORE-TEX® Products through its paces for years. And it still comes out on top as the finest waterproof and breathable fabric there is.

GORE-TEX® garments with Paclite® Product Technology are the ideal solution for hiking, golf, travel and other activities where space and weight are critical. A protective layer on the inside of the GORE-TEX® membrane makes a separate lining unnecessary. The result: minimum weight and pack volume.

2-layer GORE-TEX® Fabric is designed to provide comfort and durable waterproof protection. GORE-TEX® garments are ideal for a wide range of outdoor activities. Very breathable (between 6 and 13 RET excluding jacket lining).

MICRO FLEECE Lightweight warm insulating layer.

Microfleece is a lightweight, high insulation synthetic fabric.

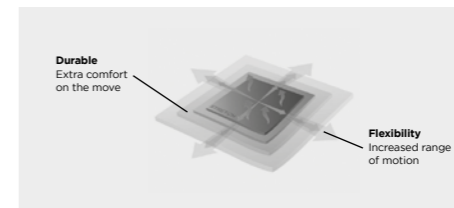

What is Microfleece?
As soft and warm as wool but with critical performance for outdoor wear. Its hydrophobic fibres retain less than 1% of their weight in water retaining insulation power when damp and dry quickly.

Optimum fabric for travel
Microfleece is a light, compact and breathable fabric - efficient to pack and versatile for hot or cold climates. Its strong synthetic fibres result in a lasting, ready-to-wear garment that's easy to care for on the move.

STRETCH A bit of flexibility goes a long way.

2-way and 4-way stretch fabrics allowing unrestricted movement plus improved fit and durability.

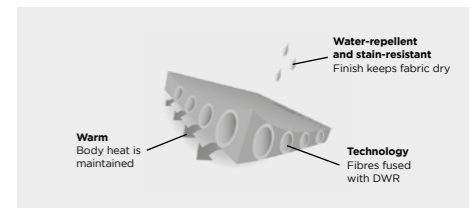

What is Stretch?
Fabrics that enhance comfort and agility, improve fit, and to maximise easy-care and minimum-iron attributes.

It's not just about the Stretch
For harsher conditions, we've applied a tighter weave maintaining our weatherproof, sun-protective and insect repellent technologies.

SMART DRY Water-repellent and stain-resistant finish.

A water-repellent treatment bonded onto the fabric so that rain and spills simply run-off.

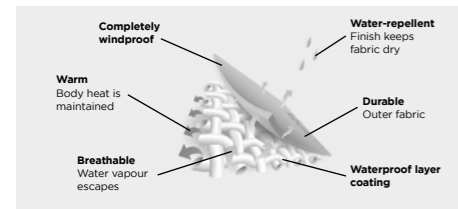

What is SmartDry Technology?
Water-repellents keep clothes drier longer, making them lighter, warmer and much more comfortable.

SmartDry uses a process that bonds the molecules of the water-repellent to the surface of the garment and lasts longer than many Durable Water-repellents (DWR).

AQUA DRY Guaranteed waterproof and breathable fabric.

Waterproof, breathable, taped seams and water tight constructions. Designed for moderate to heavy downpours.

What is AquaDry?
A combination of our waterproof and breathable coating and our technical outer fabrics delivers guaranteed levels of protection and comfort.

The outer face is treated with a DWR (Durable Water-repellent) finish to help keep the outer fabric drier for longer. The final product provides guaranteed breathability and all-round waterproof performance.

AQUA DRY MEMBRANE Dual layer fused waterproof fabric, developed by Craghoppers.

Exceptional waterproofing and breathability in the heaviest of downpours.

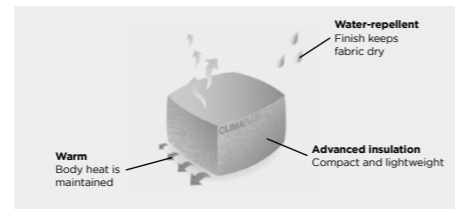

What is AquaDry Membrane?
This top of the range fabric delivers fantastic levels of waterproofness and breathability. It is a laminated fabric - the combination of fusing a waterproof breathable membrane to our durable outer face fabric.

The result is a fabric that is strong, yet comfortable to wear. DWR (Durable Water-repellent) finish helps keep the outer fabric drier for longer.

CLIMA PLUS Advanced insulating compact layer.

Supple, compact hollow fibre fill for superior warmth and ultra lightweight.

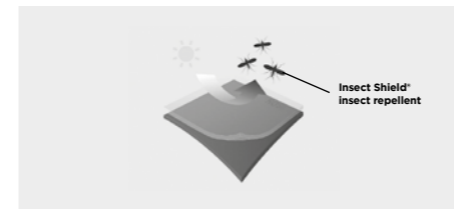

What is ClimaPlus?
This advanced insulating layer has all the suppleness and warmth of down, but in a compact, quick-drying 100% synthetic form whilst being ultra lightweight.

Engineered for maximum insulation
It can be packed or stuffed without losing its loft and the water-repellent face makes it a superior weather-beating outer for cold climates.

NOSILIFE Insect Shield® insect repellent apparel.

Insect Shield technology converts clothing and gear into long-lasting, effective and convenient insect protection.

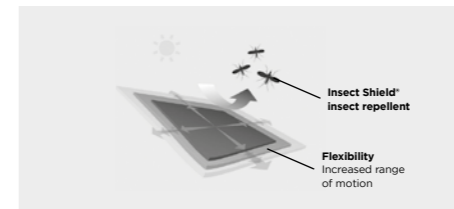

What is Insect Shield® insect repellent?
Insect Shield is a patent-pending technology for treating apparel that repels mosquitoes, ticks, ants, flies, chiggers and midges.

insect shield®
repellent apparel

NOSILIFE STRETCH Insect Shield® insect repellent apparel with an increased range of motion.

All the protection from Insect Shield® insect repellent plus our Stretch fabric for extra comfort on the move.

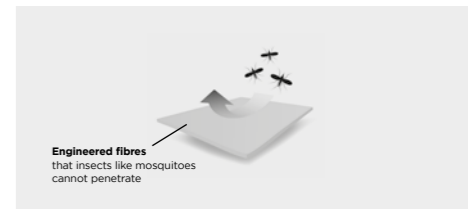

Why the added Stretch?
Stretch enables active performance across a raft of climate specific clothing. The elastane stretch fabrics are more agile, with lasting fit and easy-care, minimum-iron performance for travel.

A range of fabric weights incorporate tailored protection for use in both hot and cold climates.

insect shield®
repellent apparel

NOSILIFE DEFENCE An effective barrier to biting insects.

Keep bugs at arm's length.

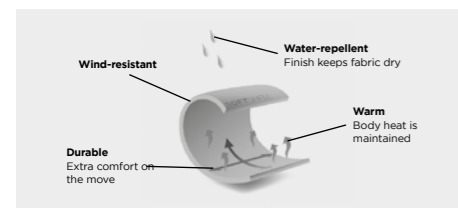

What is NosiDefence?
NosiDefence provides a robust barrier of specially constructed fibres which are too tough for insects like mosquitoes to penetrate.

NosiDefence fabric will help to protect your skin from insect bites allowing you to enjoy your adventures carefree.

SOFT SHELL Dual-performance outer layer with advanced weather-resistance.

Wind-resistant, durable and water-repellent thanks to our SmartDry treatment.

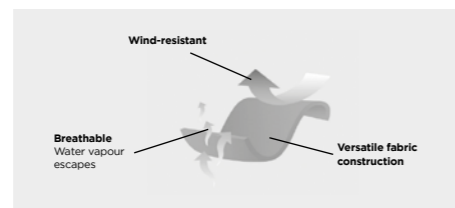

How does it work?
This dual-performance outer layer blends comfort and warmth with advanced weather-resistance.

The smooth outer face is wind-resistant, durable and showerproof thanks to our SmartDry water-repellent treatment. Worn as a lightweight, protective outer or fused with a warm fleece inner for cold climates.

WIND SHIELD Wind-resistant with maximum breathability.

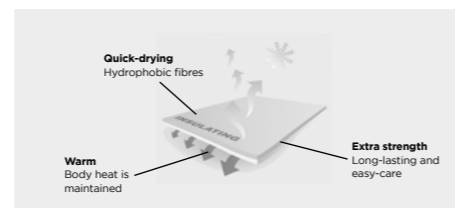

Our wind-resistant construction forms a lightweight but sturdy barrier against the harshest gales.

How does Windshield work?
Engineered for a wide range of activities and weather conditions, these fabrics are so comfortable and versatile, they often become favourite everyday outdoor garments as well.

INSULATING Super warm layering.

Warm and super insulating for maintaining the body's microclimate.

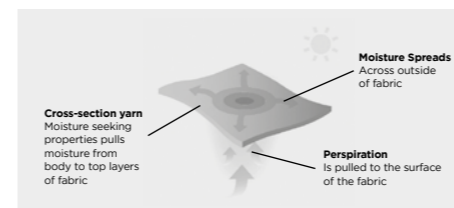

What is Insulating?
This advanced insulating layer offers outstanding warmth and is suitable for a range of activities. Our products use the latest technologies to ensure superior insulating properties for the wearer whatever the season.

Created for maximum insulation
Our insulating products provide essential insulation for a range of activities and weather conditions. Ensuring that vital body heat is retained for extra warmth while being lightweight.

MOISTURE CONTROL Moves body moisture away from the skin.

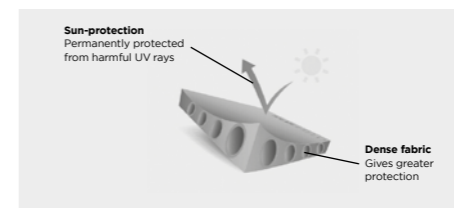

Keeping you cool on the move and fresh in the most intense humidity.

Allowing the skin to breathe
These fabrics are engineered for the ability to effectively move moisture away from the skin and to rapidly evaporate it over a large surface area.

SOLAR SHIELD Up to UPF50+ Sun-protective clothing.

Get out there and enjoy the sun without taking risks. Our SolarShield fabric technology has been tried and tested to give you up to UPF50+ protection from harmful UV rays.

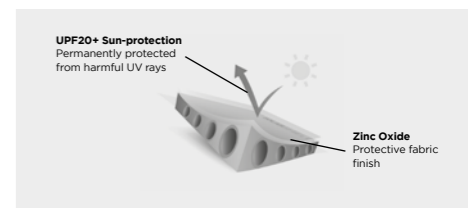

SolarShield is Craghoppers' range of permanent sun-protective fabric tested for UV-protection up to UPF50+.

Sun-protection is given by a combination of 3 things, the density of the fabric construction, the type of yarns used and its colour.

SolarShield Rating: Excellent
UPF Index: 50+
Blocked UVR: 97.5%+
UV Radiation: 2.5% or less

SOLAR SHIELD ZINC OXIDE Sun-protective clothing with Zinc Oxide.

UVA & UVB protection for the lifetime of the garment.

Why Use Zinc Oxide?
Zinc Oxide is safe & skin friendly. It protects from UVA & UVB radiation even when wet.

Zinc Oxide is also naturally anti-bacterial & creates a cooling effect.

SolarShield Rating: Excellent
UPF Index: 20+
Blocked UVR: 97.5%+
UV Radiation: 2.5% or less

INNOVATIONS

There are a million things you could take with you on your travels, but only some that you need. Your kit needs to work hard with no time-wasting, so our proven fabric technologies are here to guarantee you quality, function and purpose in every gram and every inch.

 GORE-TEX® World leading waterproof and breathable fabrics for all weather conditions. Guaranteed to keep you dry™	 HOTPOCKET A thermal fabric layer in the lining that reflects body heat for when the temperature drops	 LIGHTWEIGHT Lightweight-efficient fabric and slimmed down construction for travelling without a struggle	 THERMOELITE Stay warm on the trail with super compressible, down-effect insulation.
 INSECT SHIELD® Insect Shield® technology converts clothing and gear into long-lasting, effective and convenient insect protection	 INTERACTIVE Zip in or zip out Insulating layers giving versatility, warmth and protection depending on the weather	 AUDIO POCKET An internal pocket & cord headphones loop for your favourite tunes on the move	 THERMOELITE HYBRID Fusing sumptuous down with hi-tech synthetic fill for optimum lightweight insulation.
 SOLARSHIELD ZnO Zinc Oxide treatment creates a sun-protective fabric, from UPF15 up to UPF50+ protection	 SECURITY Hidden or zippered pocket(s) for valuables	 PACKABLE Packable products are designed to pack away into their own pocket or supplied stuff-sack	
 SOLARSHIELD Tried and tested sun-protective fabric giving up to UPF50+ protection from harmful UV rays	 WASH&WEAR Easy care, quick drying fabric reduces the need for ironing	 3 IN 1 Zip in or zip out the accompanying layers giving versatility, warmth and protection depending on the weather	
 AQUADRY Guaranteed waterproof & breathable fabrics with taped seams for protection & comfort in moderate to heavy downpours	 MULTIPLE POCKETS	 PART ELASTICATED WAIST For increased comfort	
 AQUADRY MEMBRANE Dual layer fused waterproof fabric, exceptional waterproofing and breathability in the heaviest of downpours	 ADJUSTABLE CUFFS	 VENTED BACK Built in mesh panels to facilitate air flow round the body	
 WINDSHIELD Our wind-resistant construction forms a barrier whilst maintaining maximum breathability	 BOUND CUFFS	 DRYING LOOPS For laundering on the move	
 SMARTDRY A water-repellent treatment bonded onto the fabric so that rain and spills simply run-off	 LONGER LENGTH For greater protection against wind and rain	 ROLL-UP SLEEVES With button or stud fastening	
 STRETCH Designed to stretch thus providing comfort and flexibility for the active outdoors	 ADJUSTABLE WAIST	 HEEL TAPE For added durability in a high wear area	
 CLIMAPLUS Supple, compact hollow fibre fill for superior warmth and ultra lightweight	 REVERSIBLE High-performance fabrics inside and out. Clothes that can change as fast as the weather changes its mind	 SUNGLASSES WIPE Integrated microfibre wipe designed to clean sunglasses	
 MOISTURE CONTROL Keeping you cool on the move and fresh in the most intense humidity	 SOLARSHIELD COLLAR Flip up collar to protect your neck from the sun	 ZIP OFF TROUSERS	
 INSULATING Warm and super insulating for maintaining the body's microclimate	 COOLING COLLAR Wicking mesh built into the collar to keep your neck cool	 ANKLE ZIPS	
 MIRCOFLEECE Microfleece is a lightweight, high insulation synthetic fabric	 BRUSHED INNER COLLAR For ultimate comfort	 DRYBAG Water-tight pocket giving complete protection for money, passports, tickets or mobiles	
 WINDPROOF Our wind proof garment construction forms a sturdy barrier against the harshest of gales	 PROTECTOR COLLAR Flip-up collar with secure stud to protect from sun and biting insects	 CONCEALED HOOD	
 RECYCLED FLEECE Part made from recycling plastic bottles into polyester.	 O/S MAP POCKET Holds full-sized Ordnance Survey map	 STORM FLAP	
 NOSIDEFENCE A robust barrier of specially constructed fibres which are too tough for insects like mosquitoes to penetrate.	 MOBILE PHONE POCKET Designed to comfortably and securely hold your phone	 INNER DRAWCORD	
 THERMALCONTROL A temperature-balancing fabric technology that absorbs heat from the body, distributing it across the fabric's special microthermal fibres.	 WATERPROOF 800mm	 DOUBLE KNEE	
	 BREATHABLE g/m ² /24hr	 DOUBLE SEAT	
	 CREDIT CARD POCKET A handy little Velcro flap pocket within a pocket for keeping cards safe and secure	 EXTENDABLE LEG	
	 ACCESSORY POCKET A great stretchy pocket for your gloves, hats or anything else you accessorise with	 WATER RESISTANT With a coating to shed water helping to keep you drier for longer	
	 EASY CARE Minimal iron, making life & travel that little bit easier	 AJUSTABLE HEM	
		 ANTI-BACTERIAL Natural hygienic properties help you stay fresher for longer	
		 RFID POCKET Our special lining fabric helps prevent accidental use or deliberate mis-use of credit cards and passports by blocking radio signals from activating the chip

FIT

All our garments are designed specifically for purpose. Our long standing 'Classic Fit' is exactly what you'd expect from everyday outdoor gear - slightly looser with a casual and relaxed feel.

For those who prefer to wander off track the 'Adventure Fit' offers a slimmer fitting throughout for added comfort.

We then have 'Active Fit', this is essentially our Pro Stretch gear. Designed to contour the body with cutting in specific areas for a slim fitted feel.

WHAT TO MEASURE

HEAD	The circumference around the middle of your forehead
HAND	The circumference around the palm.
BUST/CHEST	Under your arms, around the fullest part of your chest
WAIST	Around your natural waist line at the top of the hips
HIP	Around the fullest part of you body at the top of the leg
LENGTH	From the inside leg to the bottom of your ankle

ACCESSORIES

KIDS

Hat Size	Head (cm)
6-8 yrs	50-52
9-12 yrs	52-54

MENS/UNISEX

Hat Size	Head (cm)
S/M	55-57
M/L	58-60

Glove Size	Hand (cm)
S/M	17-18
M/L	19-20
L/XL	21-22

WARMTH RATING

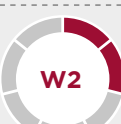

There is a big misconception that heavier means warmer, this is not the case with modern fabrics. Multiple layers trap more air than one single bulky layer and give more flexibility to regulate body heat by adding or removing layers as you heat up or cool down.

Also depending on the garment it may also be wind-resistant or even windproof. This can make a huge difference even if the garment does not have high insulation as being able to cut the windchill can literally be the difference between life and death.

Additionally it is worth remembering that everybody will experience cold differently and what suits one person may not work for another.

WARMTH INSULATION RATING SYSTEM

Our warmth rating system is designed to make the insulating properties of our various layers understandable at a glance; featuring options suited to every climate - from gentle breezes to full-on blizzards.

7	Optimum insulation for extreme conditions 	
6	Enhanced performance in colder climes 	
5	Effective cold weather coverage 	
4	Insulated for warmth and comfort 	
3	Midweight layers for cooler conditions 	
2	Lightweight 	
1	Baselayer
