ROXA'S COLLECTION 016-017

COLLECTION

- 6 TOURING
- 8 FREERIDE
- 10 FREESKI
- 14 ALL MOUNTAIN ADV
- 18 ALL MOUNTAIN
- 22 JUNIOR
- 24 RENTAL

EXTRA

- 28 LINERS
- 30 ACCESSORIES
- 31 SIZE CHART

INTUITION

- Superior warmth, comfort and durability
- High performance, ultralight
- Low pressure, full-contact fit
- 100% heat-moldable

POWER STRAP BUCKLE

Allows for excellent boot top closure as well as increasing stride range for hiking when open.

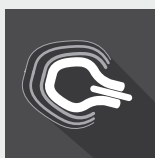

ROX GRIP

A rubber insert between heel and toe of the boot increases grip when hiking.

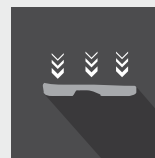

ULTRALON FOAM

Ultraloon developed a high quality foam renowned for its superior thermoforming ability, high level of insulation and excellent durability.

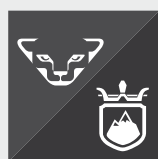

ERGONOMIC BUCKLE CABLE SYSTEM

System adapts to the shape of the shell for perfect fit and minimal bulk or weight.

SHOCK ABSORBING BOOTBOARD

The rubber bootboard absorbs shocks while skiing, maintaining a high level of performance and less fatigue.

DYNAFIT BINDING

Standard Dynafit Certified Insert compatible.

KINGPIN BINDING

MARKER - KINGPIN compatible.

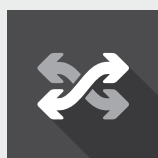

CLASSIC OVERLAP DESIGN

Traditional 2-piece overlap design provides power and precision. Classic overlap boots really shine on groomed or firm surfaces.

OVERSIZED CANTING

High strength and durable oversized cuff alignment mechanism provides precise personalization.

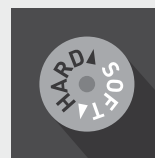

ROXMIX BI-INJECTION

Mix-color allows Roxa to mix and match the same material getting different and unique aesthetical solutions.

CABRIO DESIGN

This unique construction combines a 3 piece construction assembly -shell/cuff/tongue- that comfortably secures the foot and lower leg while optimizing smooth and progressive flexibility. Cabrio boots are extremely versatile in varied terrain.

ADJUSTABLE FLEX

The setting of "Hard-Soft" allows the skier to adjust the flex of the boot.

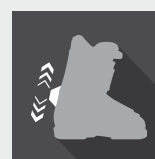

CAMLOCK POWER STRAP

Provides powerful top-of-boot cinching for outstanding performance and precision.

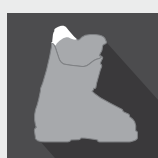

3D M.A.M.S ZOOM SYSTEM

Unique geometric "star" design allows the shell to conform to the ankle shape without compromising lateral rigidity.

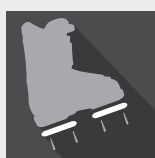

SKI-HIKE CUFF LOCK

The Ski-Hike Cuff Lock allows for easy striding when open and uncompromising performance when locked.

WOMEN'S SPECIFIC CUFF

Women's specific upper cuff provides reduced height and "scalloped" shape to comfortably accommodate women's calf shapes.

CHANGEABLE SOLE

Roxa patented a system to interchange alpine and touring soles with a Dynafit insert integrated into the shell.

A SPECIAL TIP

in extending neoprene adapts to different sizes always maintaining excellent insulation against external agents.

Children grow up way fast. Luckily, Roxa has created a boot that grows with them, by adapting the boot to the size of the foot in a quick and easy way. The boot simply unscrews and can be lengthened to the desired size. An elastic neoprene liner is designed to ensure maximum comfort and insulation to keep the kids warm and having fun all day.

PATENTED

BOOTS DESIGNED SPECIFICALLY FOR RENTAL. INCLUDE A SERIES OF FEATURES DEVELOPED TO IMPROVE THE RENTAL EXPERIENCE.

BARCODE
Roxa products intended for rental provide a barcode and sizing information to assist in identification.

SANITIZED LINER
The boot liner is made with comfortable materials and underwent an antibacterial treatment. To simplify the insertion of the foot, a loop in the front of the tongue and one in the back of the liner have been added.

ADJUSTABLE CUFF BUCKLE RACKS
Fast and easy macro adjust cuff buckle racks save time and allow easy fitting of any lower leg shape.

EASY ENTRY
All ROXA rental models are easy to get on and off.

BUCKLES ADJUSTMENT
The cuff of the skiboot can be simply and efficiently adapted to the shape of the foot with an adjustable buckle that can be lengthened or shortened.

ROXA LINERS.

SKI BETTER IN COMFORT.

INTUITION ROXA (I.R.)

HIGH PERFORMANCE
100% HEAT-MOLDABLE
LIGHT WEIGHT AND WARM

ULTRALON FOAM

THE FINEST EVA AVAILABLE
HEAT-MOLDABLE
RESILIENT AND DURABLE FIT

ULTRALIGHT TOUR LINER

To be used RX 1.0

The Ultralight Touring liner is extremely light weight yet provides outstanding high performance. This anatomic liner is perfect for any kind of excursion and is made with a back flex notch that will assist while walking. Moreover, the entire liner is heat-moldable to provide the most precise and comfortable fit.

U75 TOUR LINER

To be used RX 1.0

U75 Liners offer Ultralton Touring foam, this liner is extremely light weight yet provides outstanding high performance. This anatomic liner is perfect for any kind of excursion and is made with a back flex notch that will assist while walking. Moreover, the area between the heel and the toes as well as the tongue is 75% heat-moldable to provide the most comfortable fit.

INTUITION/ROXA (I.R.) POWER LACE LINER

To be used XFACE TOUR

The I.R. Power Lace liner was designed to shine in all phases of climbing, hiking and skiing in any type of conditions. The plastic cuff and tongue reinforcements, together with the possibility of heat-molding 100% this liner ensures the best performance, fit and comfort. The back flex notch also allows a better flexion of the boot while walking. (Comes with optional laces)

INTUITION/ROXA (I.R.) FREERIDE WRAP LINER

To be used XFACE 120

This liner is a perfect blend of precise fit, comfort and performance. The 100% Intuition® EVA foam PowerWrap system reduces pressure points and at the same time provides excellent performance for a wide range of skiers needs. This boot liner is lightweight and warm due to the closed cell EVA Foam and is fully heat-moldable.

INTUITION/ROXA (I.R.) FREESKI WRAP LINER

To be used FREEBIRD 120, FREEBIRD 110

This liner is a perfect blend of comfort and performance. The laminated PowerWrap system by Intuition® reduces pressure points and at the same time provides excellent performance for a wide range of skiers needs. This boot liner is lightweight and warm due to the closed cell EVA Foam and is fully heat-moldable.

INTUITION/ROXA (I.R.) POWER TONGUE LINER

To be used BOLD 120, EVO 120

This fully heat-moldable liner is designed for high performance alpine skiing. The reinforced tongue ensures a secure and stable closure and an incredible fit that gives this liner multi-functional performance abilities. The presence of a back flex notch also increases the flex of the liner assisting the rider when the walk-mode is on.

ROXA WRAP LINER

To be used SOUL-WRAP, JADE-WRAP

A ROXA Exclusive, this 100% heat moldable liner is a perfect blend of comfort and performance. The laminated Wrap construction reduces pressure points and at the same time provides excellent performance for a wide range of skiers needs. This boot liner is lightweight and warm due to the closed cell Ultralton EVA Foam.

U75 FREERIDE LACE LINER

To be used on XFACE 100

U75 Liners offer Ultralton foam. This Freeride liner was designed to shine in all phases of climbing, hiking and skiing in any type of conditions. The plastic cuff and tongue reinforcements, together with the possibility of heat-molding 75% this liner (ankle/heel and tongue), ensures the best performance, fit and comfort. The back flex notch also allows a better flexion of the boot while walking. (Comes with optional laces)

U75 ALL MOUNTAIN LINER

To be used BOLD 100, EVO 110

U75 Liners offer Ultralton foam. This All Mountain liner was designed to shine in all phases of hiking and skiing in any type of conditions. The plastic cuff and tongue reinforcements, together with the possibility of heat-molding 75% this liner (ankle/heel and tongue), ensures the best performance, fit and comfort. The back flex notch also allows a better flexion of the boot while striding.

U75

LINERS OFFER ULTRALON FOAM IN THE HEEL/ANKLE AREA AS WELL AS THE TONGUE

U50

LINERS OFFER ULTRALON FOAM IN THE HEEL/ANKLE AREA

U75 ALL MOUNTAIN LS LINER

To be used KARA 95, EDEN 85

U75 Liners offer Ultralon foam, this liner was specifically designed for athletic women who ski in any and all conditions. The U75 All Mountain liner was designed to shine in all phases of hiking and skiing in any type of conditions. The plastic cuff and tongue reinforcements, together with the possibility of heat-molding 75% this liner (ankle/heel and tongue), ensures the best performance, fit and comfort. The back flex notch also allows a better flexion of the boot while striding.

U50 SPORT LINER

To be used EVO 90, EVO 80, BOLD 80

U50 Liners offer Ultralon foam, this liner was designed exclusively for the skier who demands high performance and optimal comfort. Thanks to the use of Ultralon foam, the liner is 50% heat-moldable in the ankle area, providing excellent fit in this critical area.

U50 SPORT LS LINER

To be used KARA 85, KARA 75, EDEN 75

U50 Liners offer Ultralon foam, this liner was designed exclusively for the woman who demands high performance and optimal comfort. It has a women's specific upper cuff that optimizes the support between the ankle and the lower leg and ensures a wider ergonomic area for a woman's calf. It is internally lined with Lycra and a soft waterproof fur that give outstanding comfort and warmth. Thanks to Ultralon foam, the liner is 50% heat-moldable in the ankle area, providing excellent fit in this critical area.

U50 FREESKI LINER U50 FREESKI LS LINER

To be used SOUL 90, JADE

U50 Liners offer Ultralon foam, this liner was designed exclusively for the new school skier who demands high performance durability and optimal comfort. Thanks to the use of Ultralon foam, the liner is 50% heat-moldable in the ankle area, providing excellent fit in this critical area.

COMFORT LINER

To be used SOUL 80, BOLD 70

This liner was created for those who are seeking an unconfined yet cozy fit. The tongue construction and the thermoformed insole provide excellent comfort.

COMFORT LS LINER

To be used EDEN 65

This liner was created for those women seeking an unconfined yet cozy fit. It has a women's specific upper cuff that offers a wider ergonomic area for woman's calf. The tongue construction and the thermoformed insole provide excellent comfort.

JUNIOR COMFORT LINER

To be used on YETI, SKY, ZUMA 1/2/3

A boot liner with a great fit and warmth, designed to give our young skiers the special attention they need.

EXPANDABLE JUNIOR COMFORT LINER

To be used CHAMELEON 2/3

We created a boot liner to be able to follow our kids throughout their growth phases. The special toe box in stretchable neoprene naturally follows the morphology of the foot, thus adapting to different sizes and eliminating any pressure points thanks to the softness of the material. Moreover it ensures excellent insulation against the elements.

SANITIZED RENTAL LINER

To be used RENTAL SERIES

The liner is made with comfortable, closed cell materials and undergoes an antibacterial treatment. These properties, combined with a fast drying ability, ensure a great rental experience.
