***CHALLENGE. EVERY DAY.***

# GRIP WALK

*firmly on the ground*

#### NATURAL WALKING FEELING

It will make you doubt you are wearing ski boots. The rounded sole improves the rolling ability on every step you take.

#### NON-SLIP MATERIAL

Designed with superior materials and a pronounced profile, the ergonomic sole holds a perfect grip on any slippery surface.

#### INNOVATIVE SYSTEM

The sole is compatible with most bindings on the market, without the need for height adjustment. While the toe and heel pads can be replaced at any time.

2A72-1

**GRIP WALK**

Walking in ski boots can be a rather slippery affair on some surfaces but the new GripWalk sole and binding system turns a conventional ski boot into a real performance miracle. This is achieved by the excellent grip, rounded high profile soles and the GripWalk binding components perfectly tailored to them.

# INTEMP HEATING

*fully integrated, fully energized*

**ALPINA'S** UNIQUE  
FULLY-INTEGRATED **INTEMP**  
HEATING SYSTEM KEEPS  
YOUR FEET COMFORTABLY  
**WARM AT ALL TIMES,**  
BUT NEVER OVERHEATED.

## CHARGING

The boot's charging input is small, discrete, easily accessed and weather-proofed. Smart and simple – no need to disassemble the boot to charge.

## BATTERY

Batteries are fully integrated inside the boot, and also easily changeable.

## SMART CONTROL

Ready to use with the simple push of a button, the system runs at full-power for initial warm-up, then automatically returns to normal power, so feet are optimally warmed but never overheated.

**InTemp**

We bid farewell to the cold days on the slope. The new InTemp heating technology ensures a warm embrace of the foot at a push of a button. Its easy access, smart charge, and discrete design will surely leave a comfortable and warm impression.

## **ELITE 120 HEAT** ski strong, stay energized

The ALLMOUNTAIN segment is designed for experienced and adventurous skiers. Its daring, unique design and high-performance features make the boots distinctive and recognizable. High-end materials, a secure fit, unmatched comfort, thermal insulation, rigidity, and flexibility: these boots provide you with the best control at all speeds and an optimal transfer of power. Furthermore, carefully developed adjustments make it possible to customize the boots to individual demands.

# Strength, Versatility & Comfort

## Height /Volume Adjustable Spoiler

A special element at the rear of the boot enables modification of the height / volume of the cuff.

## Canting

The best skiers demand the perfect stance. Adjustable canting allows for the lateral alignment of the boot to be adapted to individual preferences, which enables the skier to develop perfect technique.

## SKI/HIKE

Switching between ski- and walk-modes has never been simpler or easier – just insert the end of a ski pole, switch, and go.

A rigid, lightweight structural frame connects the four main stress points and is reinforced on the most demanding axes, ensuring maximum strength and rigidity while reducing weight.

### Easy entry system

Both the specially designed construction of the instep and the innovative Easy Entry system make boots simple to get on/off quickly and easily.

### 4DRY

4DRY liners provide breathability, drainage, ventilation and water resistance, keeping the foot warm, dry and comfortable.

### Custom Fit

Alpina liners boast a number of key features that ensure a perfect balance between performance and comfort. Thermoformable foam ensures optimal fit in the sensitive ankle area, while the specially-designed foreliner adapts to the many variations in foot profiles.

Alpina's unique fully-integrated InTemp heating system keeps your feet comfortably warm at all times, but never overheated.

By swapping the specially designed Volume Control Plate between the left and the right boots you can adjust the boot volume for optimum fit.

# ELITE MEN'S

STEP IT UP

## ELITE 120 HEAT

**3M691**

size run

Hard on the outside and soft on the inside, it is supported by an X frame chassis for incredible stability and better control on any terrain. We also fitted it with adjustable volume control to ensure a higher level of comfort. This immortal piece of hardware will last longer, no matter how many feet take it for a spin.
