

THE CIVIL MASK

As the original USA Made Facemask Company, BlackStrap is proud to be able to supply a wide range of protective equipment to the public in these uncertain times. Our first goal is to supply daily/social protection for civilians and employees to help mitigate the risks of contracting disease. Our second goal is to broaden the scope and help individuals & agencies in need: For every pack sold BlackStrap will be donating 10% in additional masks to community agencies on a weekly basis.
